

How do you make a Website step by step?

step 1 Go to [simplesite.com](http://www.simplesite.com)

step 2 Click make a free website.

step 3 Choose the primary purpose of the website.

step 4 Choose what is for.

step 5 Choose the theme for your website.

step 6 Pick a nice picture for your website.

step 7 Customize your website with a background.

step 8 Add a title for your website.

Final step Choose a username, password, and email.

This is my example: BASKETBALL IS LIFE

<http://www.simplesite.com>
